FOR IMMEDIATE RELEASE

**PARTNERS FOR WORLD HEALTH SCHEDULED TO SEND FIRST OF FOUR SHIPPING
CONTAINERS OF DONATED MEDICAL SUPPLIES TO SYRIA IN 2020**

Local Effort. Global Impact.

Portland, Maine (February 27, 2020) - On Thursday, February 27th from 9am to 11am Partners for World Health (PWH) is set to send out their first medical container of four in 2020 to Syria. Each commercial shipment container is 40 feet long and holds approximately 15,000 pounds of donated medical supplies and equipment. This shipment is headed to Syria, in partnership with NuDay Syria.

NuDay is a New Hampshire based non-profit, working to secure sustainable aid in a dignified manner for Syrian mothers and children. With well over 600,000 people killed and over 7.0 million Syrians displaced since 2011 the need for medical supplies and equipment remains dire.

Medical facilities in developing countries face dire needs for basic supplies such as gauze, masks, and gloves, as well as the equipment that “makes a hospital a hospital”. PWH delivers these items annually. These shipments are made possible through financial donations as well as the tireless efforts of dedicated staff and devoted volunteers.

PWH staff and volunteers load these shipments at their Canco Road warehouse.. The team ensures every inch of the container is filled with medical items that will have an extreme impact in the developing world.

Partners for World Health is a 501 (c)3 non-profit organization.
